To whom it may concern.

An initiative like The Bureau would provide the sharing of WA innovation stories nationally and internationally that is so desperately needed.

Unfortunately, all too often our local backyard success stories are not given the profile they deserve especially across Australian executives.

As WA State Manager for AGL I am keen to promote the opportunities that exist within WA to our broader national organisations.

I welcome and commend Business News' proposal for The Bureau and express my support for the state to engage this service.
